Authorized to work in the U.S. under F-1 OPT

## EDUCATION

### Stevens Institute of Technology

M.S. in Computer Science — Expected May 2026

- Coursework: Data Structures, Computer Organization and Programming

Hoboken, New Jersey

Jun 2024 - May 2026

### National Chung Cheng University

B.S. in Mathematics (Natural Sciences)

- Coursework: Linear Algebra, Discrete Mathematics, Numerical Linear Algebra, Probability & Statistics

Chiayi, Taiwan

Jun 2015 - May 2019

## EXPERIENCE

### Chenglin Innovation Co., Ltd. — Azure cloud development company

Software Development Engineer

- Led a team of 5 to build a procurement notification system on .NET Core MVC in 2 months, boosting cross-team communication efficiency by 30% via a real-time message board.
- Rebuilt a client's ERP frontend with Angular, ASP.NET Core, and MSSQL, adding multilingual support and improving page load speed by 25%.
- Built a corporate information portal with real-time progress visualization (ASP.NET Core, MSSQL) in 3 months, improving income/cost tracking accuracy and lifting project profitability by 15%.
- Introduced Azure DevOps CI/CD pipelines, cutting release cycle time by 40%.

Taipei, Taiwan

Nov 2022 - Aug 2024

### Digihua Intelligent Systems Co., Ltd. — Top 3 ERP vendor in Taiwan

Technical R&D Engineer

- Built multilingual import/export tooling (C#, WinForm, SQL) supporting 5+ languages, improving operational efficiency by 40%.
- Shipped 10+ custom features (field formatting, report validation, data import config) using C#, DevExpress, and NPOI to align the product with client APS workflows.
- Deployed the APS system for 5+ clients and handled custom requirements for 15+ clients, acting as technical consultant on data and integration issues.
- Partnered with a 10+ member cross-regional team to scope features and present results to executive stakeholders.

Taichung, Taiwan

Dec 2020 - Mar 2022

### Institute for Information Industry — Government-sponsored talent program

Full-Stack Developer, Industry Talent Training

- Led a 4-person team building a C#-based PLC data visualization platform with login, device monitoring, and error alerting, demoed live on Demo Day.
- Built a browser-based card game in 7 days using HTML5, CSS, and JavaScript.

Taichung, Taiwan

Aug 2020 - Dec 2020

## PROJECTS

### AI-Powered Portfolio Site

2026

- Built a full-stack portfolio site with Next.js, React, and TypeScript, deployed on Vercel with English/Chinese/Spanish localization.
- Integrated an AI assistant (Anthropic Claude API, tool use) grounded in resume data that can navigate the page and surface links (resume, GitHub, project demos) on the visitor's behalf.
- Hardened the public chat API with same-origin validation and Upstash Redis sliding-window rate limiting to prevent abuse.

### Ecommerce Platform

Personal Project

- Designed a full-stack e-commerce platform with a canvas-based product customization studio, cart, Stripe checkout, and membership system.
- Built storefront and admin apps in Next.js/React; built the API in ASP.NET Core with SQL Server and Azure Blob Storage.
- Set up CI/CD with end-to-end tests and staged deployments across Azure and Vercel.

## SKILLS

**Languages:** C#, JavaScript/TypeScript, SQL, Java

**Frameworks:** Next.js, React, .NET/ASP.NET Core, Angular, Spring Boot

**AI/LLM:** Anthropic Claude API, tool use / function calling, prompt design

**Cloud & DevOps:** Azure, Azure DevOps, Vercel, CI/CD, Upstash Redis

**Databases:** SQL Server (MSSQL), Redis

## LEADERSHIP & INVOLVEMENT

Go Instructor, Chiayi Go Academy — Taught Go to 15+ children; coordinated with parents on individualized progress plans

Aug 2016 - May 2017
